

T3 / PLANE AVAILABILITY

	Heavy Duty 2000 lbs GW	LSA 1320 lbs GW	Super HD/Dual Shock 2500 lbs GW
In Production Designed, fit, and available to order. Depending on assembly, expect a lead time of 1-2 weeks.	> PA-18 > CubCrafters (all makes that fall within this GW) > Kitfox	> Rans S7, S20 > CubCrafters (all makes that fall within this GW) > Kitfox	> PA-18, -12, -20 > CubCrafters (all makes that fall within this GW) > SQ2, 3, 4 > Glasair Sportsman > Maule > Bearhawk
In Development In the process of completing drawings, making parts, and testing fit, T3s for these planes are 1-2 months out from production.			> Glasair Glastar > Cessna 170 > American Champion > Husky
Custom One Off Custom T3s have been built for these planes, but they are neither in production nor actively under development for production.		> Savage Cruiser > Highlander	

✔ Now with sufficient field testing and updates made the T3 design, Airframes Alaska is moving forward with the certification process for the PA-18 Dual Shock model. Maule and Cessna 170 T3 certifications will follow.

? Interested in a T3, but don't see your plane here? Send us an email to info@airframesalaska.com to see about the possibility of a custom tailshock.

ALL T3 MODELS ARE CURRENTLY FOR EXPERIMENTAL USE ONLY.
