

Instructions for Continued Airworthiness
Direct Replacement Front and Rear Struts for Aviat Husky Aircraft.

Document No. AF501-ICA

P/N AF35260-501, AF35291-501

Aircraft Serial Number: _____

These instructions are to be included in the airplane Maintenance Material when the Airframes Alaska replacement struts are installed.

The information contained in this manual supplements or supersedes the type design data only in those areas listed herein. For maintenance practices and procedures, not contained in this document, consult the maintenance material, or other information that was required by the applicable regulations under which the airplane was type certificated.

REVISION RECORD

Revision	Description	Date
--	Original Issue	3/24/15

*This document will be updated in entirety when revisions are incorporated.

SECTION 1: GENERAL

The Airframes Alaska struts for the Aviat Husky are direct replacement sealed struts that replace Aviat part numbers as shown below.

	Airframes Alaska P/N	Aviat Aircraft Inc. P/N
Front Strut	AF35260-501	35260-501
Rear Strut	AF35291-501	35291-501

SECTION 2: INSTALLATION, REMOVAL AND SERVICING INFORMATION

2.1 Installation, Removal, and Inspection

This part is a direct replacement part for the original component. Except as described below, refer to the manufacturer's maintenance manual for installation, removal and inspection information.

SECTION 3: AIRWORTHINESS LIMITATIONS

The Airworthiness Limitations Section is FAA approved and specifies maintenance required under Secs. 43.16 and 91.403 of the Federal Aviation Regulations unless an alternative program has been FAA approved.

No additional airworthiness limitations are added.
